

WHY WE ARE STILL HERE

WIMBLEDON VIGIL FOR PEACE

Military attacks are the wrong response to terrorism

This weekly vigil, one of many around the world, has been held without a break since October 2001. It began in opposition to the military response following the 11th September terrorist attack and has continued to oppose the continuing cycle of violence ever since. We believe that military attacks are the wrong response to terrorism.

There are alternatives

The local groups which founded this vigil (see below) focus on different aspects of the alternatives to war. Quakers are well known for their commitment to peace. Wimbledon CND campaigns for a nuclear-free world. Merton UNA works for a better understanding of the United Nations system and its Charter as the basis of international law.

Our Agenda for Peace

- The manifest injustices of the world to be acknowledged and addressed
- International law to be universally respected
- The United Nations to be central to conflict resolution
- Full compliance with disarmament treaties that already exist
- The elimination of weapons of mass destruction to be a top priority worldwide

The world could be a better place.

If you agree that War is Not the Way — join us!

St. Mark's Place, Wimbledon, 6–7pm every Friday
